

## My Father, My Friend

As my father, he steered me in the right  
direction.

As my friend, he laughed and cried with me.

As my father, his hands were firm.  
As my friend, his hands were hard working  
and strong.

As my father, he looked over my mistakes.  
As my friend, he helped me make it right.

My father was a good man.  
My friend would lend a helping hand to  
all who asked.

My father, my friend,  
will be missed by all.
